

Dharma Rajya

Foundation for Growth: Education and Healthcare

India's demographic advantage will yield real dividends only when youth is empowered with quality education, healthcare, and skill training. True opportunity requires streamlining access and dismantling barriers. These reforms will unleash the latent potential of India's youth—one of the strongest natural levers for sustained 9% growth. Comprehensive Education and Healthcare Solutions proposed are logical, not revolutionary—it builds upon India's proven strengths.

2014 to Now: The Emergence of Dharma Rajya

Since 2014, India has advanced from being the 9th largest to the 4th largest economy, thanks to proactive governance and reform. The time is now ripe for Dharma Rajya—a natural progression toward India's own framework of Creative Harmony, rooted in empathy, inclusion, national pride, and technological progress. Maintaining 7% growth, the fastest among large economies, is a strong foundation—but elevating it to 9% requires activating India's domestic levers of progress.

Dharma Rajya's charter, native to India, is simple to comprehend and leads to action:

1. Treat financial and human capital equally.
2. Make education and healthcare universal entitlements subject to sustainability.
3. Simplify systems so citizens can aspire to reach their higher self.

Built-in flexibility ensures continuous growth and allows for periodic review of progress on key milestones: 28% revenue intake by 2040, curtailment of borrowing from 2035, and elimination of fiscal deficit by 2035.

Prime Minister Modi exemplifies integrity and trust, but India's transformation depends on system-wide trust—encompassing bureaucracy, law enforcement, and other institutions. Building this ecosystem of trust requires time and discipline but ensures irreversible national progress toward a confident, accountable, and compassionate India.

This roadmap is designed for operational viability (2027–2047). I request your kind attention to realize a healthier, better educated, and more prosperous India.

Thank you for your consideration.

Sincerely,
Rao Chalasani
